

# "How To Unleash Your Audience's Mind Power With Just One Unforgettable Presentation, Guaranteed!"

"Just wanted to thank you for making our event extra special. I have heard nothing but rave reviews about you from everyone. I am only sorry I did not get to see more!!! Again, thank you for a performance beyond any of our expectations!!! Wishing you a happy and healthy 2006!"

*Sally B. Marzouk,  
President- ZJM Communications, Inc.

Dear Special Event Planner,

Have you ever wondered if things such as mind reading, hypnosis, photo-reading, incredible feats of memory, visualization, and various other accelerated learning techniques, were real? If someone were to clearly demonstrate these techniques right in front you, wouldn't you want to benefit from them or use them to improve your company or organization's performance? Well read on to discover how to do just that!...

Now for the first time your company or organization can benefit from a dynamic presentation that not only demonstrates some of the most amazing such feats you'll ever see, but also clearly explains how attendees can quickly & easily implement these techniques to improve their performance at work AND in their personal lives as well. *Your group will simply be blown away by this presentation!*

My name is Robert McEntee, and now you can put my many years experience of presenting unique magic/variety/motivational programs to work for your event. ***Finally there is a show that is both entertaining and enlightening, and which gets corporate audiences truly excited about your event!***

I customize the performance by working with you before the event to ensure that we focus on the most valuable objectives for your group. For example, extremely entertaining walk around performances are available for receptions, etc. Alternatively, fantastic trade show presentations significantly multiply qualified leads and leave the audience not only entertained, but **with your product benefits and/or names of your sales people, actually memorized!**

This is of immeasurable value. However, for banquets, sales meetings, etc. the following presentation is guaranteed to amaze, amuse and inspire all beyond belief!...

"Great performance, a ton of fun. Everyone had a blast with all the illusions. Terrific job, thank you once again."

*Gary Cucchi,  
Progressive Marketing Group*

## ANNOUNCING AN AMAZING SHOW THAT LEAVES EVERYONE SPELLBOUND!

"*Miracles of The Mind!*" is a wonderful presentation, which uses mind-reading & illusion techniques to clearly demonstrate that audiences are capable of much more than they ever imagined! Along with the incredible "mentalism" effects and feats of memory, the presentation combines visual demonstrations of mesmerizing magic with motivational themes, audience participation, including a hypnotic "group induction", clean comedy, a spellbinding story and a breathtaking musical routine.

In the highly entertaining show, **practical advice and techniques are shared with the adult audience on improving one's memory and intuition, increasing reading speed, how to do a mind reading effect themselves, and how to use basic visualization and hypnosis techniques for improved performance and personal development.**

Attendees will both hear AND see these amazing techniques demonstrated, and some of the results and benefits will actually be experienced by attendees during the program! Everyone really appreciates this, for which you'll get all the credit, and your company or organization, all the benefit!

"The magic was very neat! We liked how you picked on people to help in the demonstrations too. Thanks!"

*Jodi Leighton,  
Verint Systems/Oheka Castle*

This is truly a wonderful presentation, many years in the making, specially created with just the right balance of education and entertainment depending on the desired outcomes of your corporate, public or private event. The effects and themes of this program are specifically ones that relate to current topics of great interest and practical benefit to individuals as well as corporations.

**I include a program outline/study guide so that the ideas & techniques shared will be remembered and implemented long after the program is over.**

This thrilling program can also include a musical grand finale, including amazing special effects and optional *dramatic fire magic & fire eating! For even more impact, the more entertaining version includes optional illusions such as sawing somebody "in half" with a power buzz saw, making a special guest literally appear in a puff of smoke, floating someone in the air, vanishing someone's head & placing a flaming torch through their ears and/or a spectacular live animal production! Even without such illusions, there is nothing more amazing to someone than having their mind read!*

## “HOW ARE YOU QUALIFIED TO PRESENT SUCH A SENSATIONAL PROGRAM?”

The motivational and personal development methods described above, concerning improving one's mind power in areas such as reading, memory, etc., are the exact same ones I used to earn an engineering degree from *Villanova University* in 1986. Some years later I used these accelerated learning skills, along with the vivid use of imagination and visualizing positive results, to become a licensed Professional Engineer in my spare time, while at the same time working as an engineer as well as constantly performing earlier versions of this show!

Additionally, your program comes with my experience as a two term President of Ring 317 of the International Brotherhood of Magicians, and a graduate of *Mystery School*, the World's leading theatrical school for magicians. Your event will directly benefit from my previous performance experience of countless entertainment and motivational programs, for nearly twenty years and every type of audience. I got so busy with these presentations I had to leave engineering to do this full time.

I am also a lifelong student of personal development, the power of the mind and accelerated learning, which attendees directly benefit from through this program, without going to all the time and expense it took me to learn these techniques. This experience has proven time and time again to **truly transform events with increased interest and unforgettable excitement!**

“Wonderful. Great mind reading & audience participation. We/I enjoyed your philosophies, magic & quick wit. I know the audience enjoyed your little sayings and you could hear them all laughing, etc, so you know you had their attention. Many thanks!”

*Barbara Ransome,  
Decision – Women In Commerce & the Professions*

## "AREN'T TRICKS JUST FOR KIDS?"

The way some magicians perform them, yes. I'm well aware that there are other "Magic Shows" you could book... *You really need to see the looks of joy and wonder on the faces of your audience to fully realize the positive impact this show has on your program!*

However, this is one of the only shows in this area that's really suitable for corporate audiences. And by now I hope I've made it clear that this show can't even be compared to “a magic show”! *Your audience will remember and benefit from this show long after other details of the affair, such as food, speeches, or music, etc., are forgotten.*

The show is typically an action-packed, solid hour long delight (but can be longer or shorter, to meet your needs and desired outcomes), and is specifically customized for your audience. **In order to meet the objectives of your event, I tailor the performance for any special theme you might want me to include.** Book this program to thrill adults with the amazing mind

reading performed with audience members, magic & illusions, music, special effects, and customized motivational messages!

So, if you want a very high quality show that **promotes your organization and/or event** with all the positive benefits and results described above, then this program is ideal for you! And don't worry, my show is NOT expensive either, even with all you are getting! Of course, I don't expect you to take my word that you will be truly proud to present this show...

**Therefore, I have enclosed some sample references, so you can see what people just like you have said about my programs. Additionally I actually offer a FREE demonstration if you're booking a larger event. Plus, this program is unconditionally guaranteed as explained below, so you can't go wrong!**

"Excellent performance. Loved the mental games! Everyone is raving! Hope we can do it again next year. Your wife's psychic entertainment was wonderful too!"

*Susan Abraham,  
New Year's Eve Gala,  
Great Neck, NY*

## "JUST HOW MUCH DOES YOUR SHOW COST?"

I understand that your program budget is probably very tight. To give you a little perspective, if you could even find a comparable program to this, for say a large corporate event, it would cost several thousand dollars. Often with these far more expensive shows, you actually get less - for instance, this show takes almost as long to set up as it does to perform, due to the elaborateness of it which results in a much more action packed show...

Fellow speakers/performers tell me I'm crazy to even consider charging less than \$1,000 because it's honestly worth much more, with all the years it took to develop and the lasting benefits it will give your company or organization. However, for a limited time your investment may be a good bit less, since I know budgets are tight these days. *Yes, it is an investment, which will pay for itself many times over through its lasting impact on your audience!...*

I enjoy doing this presentation and don't want groups to miss out due to finances, so I offer different versions to fit into most budgets! Please call me for a no-obligation, customized price quote (depending on how much customization is required, travel costs, etc) for the optimum show for your event. It will be reasonable because I know after you see my work and the enthusiastic response it generates, chances are you'll book me for more programs in the future and refer me elsewhere.

You will simply not believe the gasps of amazement coming from your audience as they witness and participate in one of these shows...

Please remember, this program will:

1. Take your audience on a journey from the ordinary to the extraordinary, into a world where anything is possible!
2. Demonstrate mind power and visualization for self-improvement techniques, with routines that will truly interest, educate and amaze your audience!
3. Give your audience some practical accelerated learning, memory and reading improvement techniques, in a truly entertaining, enlightening fashion! It will also teach them a mind reading effect to impress family/friends with, for which everyone thanks *you*! Remember, the show can be as educational or entertaining as you desire!
4. Mesmerize your audience with one of the most amazing shows you'll ever see! And since it's a live show, you'll know the incredible feats are not done with camera tricks!
5. **Be simple for you to arrange since I provide all necessary materials and coordination!**

*In fact, I'm so sure you will love this program, I guarantee it! If you are not completely satisfied, you don't pay - it's that simple! How many other programs come with such an offer?*

P.S. #2: *Miracles of the Mind!* truly is the "secret ingredient" that makes ordinary affairs extraordinary. It's the one thing that your audience will still be raving about AND benefiting from after most else is forgotten. Don't miss out. Call NOW!

P.S. #3: What my customers and clients say about my programs is much more important than what I say. Here are a few comments from satisfied customers:

"Very well done and received very good rapport with the audience. We liked all of it - especially the fire eating. Everyone's still talking about how much they liked the show - Thanks!"

*Diane Negvesky,  
General Refinancial Products - Holiday Party,  
Rockefeller Center, NY*

"Your performance at our adult party was excellent! You really can read minds! Everyone really liked your performance; they thought it was fun and different. You should get some referrals."

*Marie DePalo,  
Huntington, NY*

"As you know, your magic act was used to attract our employees to not only be entertained, but to learn about the "Magic of Giving" through the United Way. It worked! Our employees were indeed entertained and truly marveled at your skills. But more importantly they donated over \$52,000 to this worthwhile effort. Again, many thanks..."
